

PROFESSIONAL SUMMARY

Mahmoud Hussein

Software engineer crafting responsive React and Angular interfaces backed by Node.js and NestJS APIs, MongoDB and Supabase data stores and real-time communication - through collaborative engineering at The Digital Hub by UNRWA. I care about secure authentication, clean APIs, responsive interfaces, and software that stays understandable after launch.

Junior Full-Stack Software Engineer

Mahmoud.Abdulghani@outlook.com | +961

EXPERIENCE

Full-Stack Developer

Training Program

The Digital Hub by UNRWA

Collaborative full-stack development across three shipped products: GameZone Arena (Next.js, TypeScript, MongoDB, Stripe), Lobby (Angular, NestJS, Supabase, LiveKit) and UniHub (React, Node.js, Express, MongoDB).

Backend Engineering Layer

12/2025 - 01/2026

Ishtari Group

Engineered scalable MVC backend components, managed relational schemas, and structured secure RESTful API systems.

Quality Assurance Engine

05/2026 - Present

Oigetit

Conducted continuous boundary testing, trace-level log debugging, and evaluated system flows to catch and fix core script anomalies.

Web Development Trainer

04/2025 - 06/2025

KfW & EU Graduate Support Program | FALA Association

Mentored developers on procedural engineering logic, component workflows, and industry-standard deployment structures.

PROJECTS

GameZone Arena

Gaming arena reservation

Live availability, online bookings and payments for a gaming arena.

Live demo | Source code

Five-gate auth flow: registration OTP verification JWT protected routes
Time-slot conflict detection prevents overlapping room and device bookings

- Next.js 16
- React 19
- TypeScript
- Tailwind CSS 4
- MongoDB
- JWT + OTP
- Stripe
- Nodemailer / SMTP

Lobby

Real-time communication platform

Persistent communities, temporary guest rooms and live voice.

Live demo

Authenticated users: persistent identity, communities, servers and channels
Guest access to temporary rooms through invitation links

- Angular 22
- NestJS 11
- Supabase
- LiveKit Cloud
- TypeScript
- Tailwind CSS
- Zod
- pnpm Workspaces

TECHNICAL SKILLS

Frontend

React.js, Next.js, Angular, TypeScript, Tailwind CSS, Responsive Design

Backend

Node.js, Express.js, NestJS, PHP, REST APIs, JWT Authentication, Role-Based Access (RBAC), Real-time Systems

Data

MongoDB, PostgreSQL, MySQL / MariaDB, Supabase, Database Design, Parameterized SQL

Tools

Git / GitHub, Stripe, Nodemailer / SMTP, LiveKit, Zod, Postman, Agile / Scrum, OpenAPI / Swagger

UniHub

University management system

Dedicated portals for students, professors and administrators.

[Live demo](#) | [Source code](#)

Student portal: course enrollment, assignment submission, attendance and grades

Professor portal: course management, assignments, exams, grading and announcements

React

Node.js

Express.js

MongoDB

REST APIs

JWT Auth

Tailwind CSS

Medicare Hub

Clinic management system

Patient records, schedules and role-based clinic workflows.

[Live demo](#) | [Source code](#)

Appointment booking and confirmation across medical specialties

Role-based dashboards covering patients, doctors, receptionists and pharmacy

PHP

MySQL

Bootstrap

JavaScript

PHPMailer

Home Services

Responsive web application

A pixel-faithful landing page built from a Figma design.

[Live demo](#) | [Source code](#)

Pixel-perfect implementation of a professional Figma UI kit

Responsive across desktop, tablet and mobile with mobile sidebar navigation

React

Vite

Tailwind CSS

JavaScript

Responsive Design

Phone Store

Full-stack e-commerce

Storefront and admin catalog on a custom PHP MVC stack.

[Source code](#)

Product catalog, search and cart managed through PHP sessions

Admin catalog control with inventory management

PHP

MySQL

JavaScript

CSS3

Session Auth

EDUCATION

Bachelor's Degree in Computer Science

Lebanese International University (LIU)

10/2022 - 06/2025

Tripoli, Lebanon | Cumulative GPA 3.30 / 4.00

CERTIFICATIONS

Software Engineering Internship

The Digital Hub (UNRWA Training Program) - 2026 - Present

Angular Self-Learning Course

Self-Learning Program - 09/2025

AWS re/Start Bootcamp - Cloud Computing & DevOps Fundamentals

Amazon Web Services - 80 Days

Full-Stack Web Development

youbee.ai - 4 Months

LANGUAGES

Arabic (Native), English (Fluent)
